

Please reject NAB's petition 04-160. I am a subscriber to satellite radio because of the lack of choice and quality of my local radio stations and it already angers me when content is restricted for whatever reason- be it political, for the financial profit of a few, or just plain censorship of speech a few prudes think I as an adult shouldn't be exposed to... By the way, I do regularly vote and hope for significant changes this fall which would affect who heads an agency like the FCC and gives our representatives the message that we expect them to restrain the current orgy of favoring powerful corporate interests over what serves the people of this country. Respectfully, Ceorl
